## **DETAILED ACTION**

## Election/Restrictions

1. This application encompasses 8 species of the inventive subject matter, as for example, the species of Figures 1, 2A and 2B; 3; 4 and 5; 6; 7A; 7B; 8; and 9 respectively (note: the different species have been separated by semicolons [;]). Pursuant to 35 USC §121, applicant is required for a complete response to (1) elect a single disclosed species, and (2) list all claims readable on the elected species including and any claims subsequently added (MPEP 809.02 (a)).

Applicant is further advised that a mere argument alleging that a generic claim exists or is allowable will not satisfy a species election requirement. For a complete response, applicant must elect a single species and list the claims readable on that species as set forth above.

## **Drawings**

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings filed on October 28, 2003 do not comply with 37 CFR 1.84. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance. Note: it is believed that the lower Fig. 7A on p. 8/10 is an error for Fig. 7B.
